

The Items and Things you can do with Glass Etching and Sandcarving

Brought to you by Eric Robert W.

<http://www.glassetchingsecrets.com/info.html>

This is a free report that will show you some of the interesting glass items you can etch to help expand your creativity. Also, you can even etch and sandcarve other materials such as wood, metal, tile/ ceramic, marble, or rock.

Whether you're a complete newbie to glass etching/ sandcarving or have been working with it for all your life, this should give you some customized ideas. These can be used for a hobby or a business service that you provide. If you chose to get into business making customized glass etchings, you can try and implement all these ideas listed to broaden your customer reach.

Now, I realized that some people come to my website in interest of using glass etching cream and others are seeking information for glass sandblast etching/ sandcarving processes. Although my primary specialty is working with glass sandblasting, the information manual at

<http://www.glassetchingsecrets.com/info.html> covers both types.

Here is a list of some of the interesting items you can easily personalize without the need for expensive equipment:

1. Etching Glass Mugs and Cups:

2. Wine/ Champagne Glass Set

3. Cake Dishes, Baking Dish, & Cookie Jar Glass

4. Etched Glass Mirror

- a. For Bar
- b. Home Decoration
- c. Business Signs

5. Plain Flat Glass Decoration/ Lighted Glass Displays

6. Corporate and Business Awards

7. Glass Name Plates for Office Desk

8. Christmas Glass Ornaments
